EMPLOYMENT/ECONOMY

DATE	GUEST	TOPIC	LENGTH
1/5/14	Ohio Association of Food Banks Lisa Hamler-Fugitt	She says one in six Ohio households face "food insecurity," up 6% from a decade ago and 10th worst in the nation. She says cuts are coming to the food stamp program, unemployment benefit extensions are running out and the economy is not recovering quickly enough to help people during this time of need.	8:00
1/5/14	Libertas Wealth Management Group President Adam Koos	He advises that people pay off credit card debt and maximizing any matching contributions to a 401k. He also recommends an emergency stash of available money to handle 3-6 months of living expenses in the event of an emergency (job loss, illness, etc).	5:00
1/12/14	R. William Holland, author of Cracking the New Job Market	He says nearly half of college graduates have jobs that don't require college degrees. He says students of today need to think about the value of a college degree and prepare for college as though it is a job in itself. He says parents also need to be more engaged in their children's career choices and preparations.	17:00
1/12/14	Ohio Republican Party Chair Matt Borges and former Ohio Democratic Party Chair Dave Leland	Borges says the unemployment rate has dropped more than three percentage points with John Kasich as governor and the economy is improving. Leland says Ohio's economy improved early in Kasich's administration the same way the nation as a whole improved but that, while the nation's recovery continues Ohio's economy has stagnated, with the unemployment rate increasing of late in Ohio.	11:00
1/19/14	Scott Greenberger, editor of Stateline—a project of the Pew Charitable Trusts	Stateline is out with its annual State of the States series, which is projecting Ohio's job growth in 2014 at 33rd best, with 75,000 new jobs created. The job number itself would be 8th highest.	11:00

1/26/14	Ohio Department of Job and Family Services Deputy Director of the Office of Communications Ben Johnson	He talks about the state's unemployment rate—now 7.1% for December, down from 7.2% in November.	5:00
2/9/14	Political strategists Dale Butland (with Innovation Ohio) and Bob Clegg (with Midwest Communications Media)	They talk about various political issues, including whether they think criminal charges will come in the Columbus schools scandal, whether Ed Fitzgerald will raise enough money to seriously challenge John Kasich, whether efforts will continue to make Ohio a Right-To-Work state, whether President Obama is right that the state of the union is strong, whether New Jersey Governor Chris Christie can still make a run for president with the bridge scandal going on in his state, and whether the Farm Bill renewal was a good thing.	4:00
2/16/14	Lieutenant Governor Mary Taylor	She says the Kasich Administration has improved Ohio's economy with 170,000 new jobs—9th best in the nation. She says JobsOhio is really just getting going and the administration is focused on business expansion in Ohio. She says if Democrats focus on the so-called "War on Women" won't work in Ohio because the governor has expanded Medicaid, helping low-income women and is providing state funding to rape crisis centers.	6:00
2/16/14	Democratic gubernatorial candidate Ed Fitzgerald and running mate Debora Neuhardt	They say they are not concerned about campaign funding—they say they'll have enough to get their message out. He says Governor Kasich is focused on providing tax cuts for the wealthy at the expense of the poor and reducing funding for public education. Neuhardt says the "war on women" isn't an abortion issue—while the right to choose is important she says women also make 23 cents on the dollar less than men.	6:00

2/16/14	Political strategists Bob Clegg and Dale Butland	They talk about various political issues, including whether the Kasich campaign should tout job growth during the campaign, whether Kasich should pledge to spend four years as governor if re-elected since there is talk from others that he may run for president, what Kasich's and Fitzgerald's biggest vulnerabilities are, whether healthcare reform is good, and whether it will lower healthcare costs.	5:00
2/23/14	U.S. Senator Sherrod Brown.	He wants tipped employees to get a raise to 70% of the regular minimum wage—it's currently 29% and has been more than 20 years since that segment has received a boost.	4:00
2/23/14	General Motors Head of Consumer Affairs James Bell	He discusses GM's job presence in Ohio and auto industry health. He says GM has paid off its government loan and says people should understand that Ford did borrow money to stay afloat during tough times—they just didn't borrow it from the federal government. He takes issue with the expression "government bail-out." He also talked about some of the vehicles now that the annual auto shows are underway.	13:00
3/2/14	Democratic Gubernatorial candidate Ed Fitzgerald	He rebuts the Governor's State of the State speech, saying the governor balanced the budget because he is required to do it like any other Ohio governor. But he says he has done it by jacking up the sales tax and some service taxes as well as pulling back funding to local governments and schools, causing local taxes to go up. He says Ohio's unemployment rate has gone up in recent months and most of his job gains came in the first year of his governorship when the entire nation was just emerging from a deep recession.	6:00
3/9/14	Ohio Department of Job and Family Services Deputy Director of the Office of Communications Ben Johnson	He talks about the latest unemployment rate. It's 6.9% for January, down from 7.1%. He talks about the types of jobs on the increase and those on the decrease.	3:00

3/9/14	Ohio Policy Matters Research Director Zach Schiller	He talks about tax cuts and whether they work. He says a state income tax reduction of a few percentage points results in an extra $10-20 per year for many Ohioans, a little more than that for middle class Ohioans, and a few thousand dollars for the wealthy, but not enough for any group to get life-changing savings. But he says when taken together it equals a loss of revenue in the hundreds of millions of dollars for the state and if it isn't paid for properly with savings somewhere that makes sense it results in more of a burden for local governments and schools and other entities.	24:00
3/9/14	Columbus Dispatch Reporter Joe Vardon	He follows up on Governor Kasich's State of the State address. He says the Governor's positive take on job creation will meet with criticism, especially when the controversial JobsOhio is thrown into the mix. He also talks about the Statehouse debate going on over allowing more calamity days for schools and an anti-bullying bill making electronic harassment illegal .	11:00
3/9/14	Political strategists Dale Butland (Innovation Ohio)and Bob Clegg (Midwest Communications Media)	They debate various issues including whether the state is better off now than four years ago, whether Cuyahoga County's economy under Ed Fitzgerald is doing better than Ohio's economy under John Kasich, what Ohio's best pitch is to the Republicans to bring its convention to Cleveland, Columbus or Cincinnati, and whether President Obama's unpopularity will hurt Ohio Democrats in the election.	5:00

EDUCATION

DATE	GUEST	TOPIC	LENGTH
1/12/14	R. William Holland, author of Cracking the New Job Market	He says nearly half of college graduates have jobs that don't require college degrees. Also about pressure that pro-life groups are putting on Republican legislators to revive the Heartbeat Bill, which would ban abortions if a fetal heartbeat is detected.	7:00
2/2/14	Political strategists ProgressOhio Executive Director Brian Rothenberg and Ohio Right to Life Executive Director Mike Gonidakis	They discuss various political issues, including whether abortion rights will be a campaign topic in Ohio in 2014, whether voting rights bills target African-Americans in trying to make it harder for them to vote, whether teachers should be allowed to have guns, whether it should be easier to recall statewide office-holders in Ohio, whether the death penalty should be put on hold in Ohio because of concerns over justice and drugs used, and whether marijuana legalization will come soon to Ohio.	5:00

He says district administrators directed others to manipulate grades and attendance figures without putting anything in writing, causing people to fear for their jobs. Information is being turned over to the county prosecutor.	7:00
2/9/14	10-TV Reporter Tanisha Mallett	She discusses the Columbus City Schools attendance scandal, saying teachers are not being implicated in the audit and she says the instructors are pleased with the auditor's report, which even praised teachers for their role in helping to unfurl the complicated issue.	3:00

2/9/14	Columbus Dispatch reporter Joe Vardon	He discusses various state issues, including extending calamity days. He says some Republicans have a problem with adding calamity days because teachers are being paid for those days and it is taxpayer money at stake. Vardon has been following Governor Kasich on the campaign trail in recent days and says he's been talking a lot about poverty and education and the need for faith-based organizations and businesses getting more involved in solving the two issues. And he talked about the sizable campaign fundraising difference to this point between money leader Kasich and challenger Ed Fitzgerald.	3:00
2/16/14	Democratic gubernatorial candidate Ed Fitzgerald and running mate Debora Neuhardt	They say they are not concerned about campaign funding—they say they'll have enough to get their message out. He says Governor Kasich is focused on providing tax cuts for the wealthy at the expense of the poor and reducing funding for public education. Neuhardt says the "war on women" isn't an abortion issue—while the right to choose is important she says women also make 23 cents on the dollar less than men.	6:00
2/23/14	Columbus Mayor Michael Coleman	In his State of the City speech he talked about steps being taken to get past the data scrubbing scandal within Columbus City Schools, with new leadership and cooperation with a state investigation. But he says 34% of kids enter kindergarten unprepared and more than half are poised to fail the 3rd Grade Reading Guarantee. He introduced Early Start Columbus, putting $5-million dollars into early education efforts. He also introduced a program (Fast Path), a cooperative effort between businesses and Columbus State Community College to train workers.	10:00

2/23/14	Political strategists Katie Egan (political director for the Ohio Republican Party) and Dale Butland (Innovation Ohio)	They discuss various issues, including proposed election reform that would eliminate some early voting days, whether Ed Fitzgerald made the wrong move in trying to get Governor Kasich to promise he'll serve all 4 years if re-elected governor instead of running for president, whether same sex marriage will come to a statewide vote in November, whether the Affordable Care Act is finally running smoothly, whether an audit of charter schools will expand in the state, what will end up happening as far as allowing some type of gambling machines in veterans organizations (VFW, etc), and whether Columbus will land a national political convention.	6:00
3/2/14	Governor John Kasich	In his State of the State Address he says Ohio's state income tax is lower and an $8-billion budget hole has been filled during his time in office and the rainy day fund has gone from 89 cents to $1.5 billion and created 170,000 jobs. But he says too many Ohio kids are dropping out of school. He's proposing that vocation education begin in junior high instead of high school and that opportunities should be expanded to allow students to learn in a workplace rather than just in classrooms. He says he wants to bring schools, parents, business leaders, community leaders and faith-based organizations together to help improve education and use some casino gambling revenue to pay for it.	9:00
3/2/14	Democratic Gubernatorial candidate Ed Fitzgerald	He rebuts the Governor's State of the State speech, saying the governor balanced the budget because he is required to do it like any other Ohio governor. But he says he has done it by jacking up the sales tax and some service taxes as well as pulling back funding to local governments and schools, causing local taxes to go up. He says Ohio's unemployment rate has gone up in recent months and most of his job gains came in the first year of his governorship when the entire nation was just emerging from a deep recession.	6:00

3/2/14	Ohio House Speaker Bill Batchelder, Ohio Senate President Keith Faber, Ohio House Minority Leader Tracy Maxwell Heard and Ohio Senate Minority Leader Joe Schiavoni.	They react to the State of the State speech. Batchelder called Kasich's speech "visionary" and "challenging" while Faber said he was impressed and says Ohio is moving from a valley to the summit. Schiavoni said Kasich's words don't match his actions—that he has not lowered taxes, he has raised many types and simply shifted taxes so more lower-income people are paying the share. Maxwell Heard expressed concern about expanding vocational education to Junior High, saying that age is too young to try and pin a career goal on, with the way technology rapidly changes and a child's own expectations and interests shift.	7:00
3/9/14	Columbus Dispatch Reporter Joe Vardon	He follows up on Governor Kasich's State of the State address. He says the Governor's positive take on job creation will meet with criticism, especially when the controversial JobsOhio is thrown into the mix. He also talks about the Statehouse debate going on over allowing more calamity days for schools and an anti-bullying bill making electronic harassment illegal .	11:00
3/16/14	State Senator Peggy Lehner	She talks about zero tolerance school policies and the 3rd grade reading guarantee. She says a recent incident in which a Columbus elementary school student was suspended for 3 days for shooting an imaginary gun using fingers is "ridiculous" and an example of zero tolerance policies going too far. She also says a substantial number of 3rd graders will fail the reading test this spring and summer and be held back and acknowledges that, even though she supports the 3rd Grade Reading Guarantee, it is going to be a highly charged issue when it happens.	8:00

3/23/14	Political strategists Brian Rothenberg (ProgressOhio) and Bob Clegg (Midwest Media Communications)	They discuss various political issues, including whether all Ohioans would benefit from Governor Kasich's tax cut proposals, whether taxing cigarettes and oil drillers is a fair approach to help off-set a state income tax cut, whether Kasich intends to run for president in 2016, whether Kasich's mid-budget plans have wide appeal, and whether the 3rd grade reading guarantee is being handled well by the state.	4:00

3. GOVERNMENT

DATE	GUEST	TOPIC	LENGTH
1/5/14	Congressman Pat Tiberi	He talks about problems some Republicans in the House are having with the more conservative tea party wing. Tiberi those who are leading that branch are misleading their supporters into thinking the Affordable Care Act can be overturned. He says it's about creating an ongoing political crisis in order to raise money from supporters. He says Republicans have to accept the fact that they don't have control of the White House or the Senate and they are limited in what they can do. But he also says President Obama is not the kind of leader the country needs, that deficits are still too high and spending priorities are out of whack.	8:00
1/5/14	Ohio Association of Food Banks Lisa Hamler-Fugitt	She says one in six Ohio households face "food insecurity," up 6% from a decade ago and 10th worst in the nation. She says cuts are coming to the food stamp program, unemployment benefit extensions are running out and the economy is not recovering quickly enough to help people during this time of need.	8:00

1/5/14	Common Cause Ohio Chair Sam Gresham and Ohio Right to Life Executive Director Mike Gonidakis	They briefly discussed several issues, including whether all the statewide Republicans will be re-elected in 2014, whether JobsOhio and the way it is funded and managed will be a major scandal in 2014, whether the failure of State Senator Eric Kearney remaining as Ed Fitzgerald's gubernatorial running mate will hurt the Democrats, whether the Affordable Care Act's problematic roll-out will hurt the Democrats in 2014, whether a Tea Party or Libertarian candidate will hurt Governor John Kasich's re-election chances, and whether John Kasich will run for president in 2016.	7:00
1/5/14	Franklin County Auditor Clarence Mingo	He talks about being diagnosed with Parkinson's, and about his chief of staff, who was dismissed, then raised sexual harassment allegations and allegedly threatened to sue Mingo, then was hired back as a consultant for $135,000. 1/26/14	Jenny Jenkins with the IRS	She talks about the tax filing season, saying people overwhelmingly use of e-filing now. She also talks about how people can set up a monthly payment plan if they cannot pay now, and how there are many people eligible for the earned income tax credit who don't claim it.	14:00

1/26/14	Hamilton County Commissioner Todd Portune	He talks about his possible run for Governor. He says he still has not decided whether to run but acknowledges that time is running out and that if he does run it will be an uphill battle since the Ohio Democratic Party is throwing its support behind Cuyahoga County Executive Ed Fitzgerald. Portune says he would be stronger in southwest Ohio than Fitzgerald, which he says is essential to win the race.	9:00
2/2/14	Ohio Secretary of State Jon Husted	He talks about election law changes being considered in the state legislature. Democrats say the bills are intended to make it harder to vote by limiting early voting.. Husted, a Republican, says eliminating early voting on the weekend before the election helps local election boards from getting slammed as they prepare for election day. 2/2/14	Universal Health Care Action Network of Ohio Executive Director Cathy Levine	She says the website problems with the roll-out of the Affordable Care Act are unfortunate but expanding prescription medications to Medicaid also got off to a rocky start. She says tweaking will be necessary going forward but it is an improvement for healthcare overall.	10:00
2/2/14	National Mining Association President and C. E. O. Hal Quinn	He says coal-fired power plants provide the cheapest electricity and coal is still the most stable form of fuel—natural gas prices are spiking this year because of demand. He says stricter federal regulations are harming coal-based efforts.	7:00

2/2/14	Columbus Dispatch Reporter Jim Siegel	He discusses various political issues, including the status of a bill allowing teachers to have guns in the classroom and another that would allow silencers on shotguns used by hunters. Also about pressure that pro-life groups are putting on Republican legislators to revive the Heartbeat Bill, which would ban abortions if a fetal heartbeat is detected.	7:00

3/2/14	Columbus Dispatch Reporter Joe Vardon	He talks about whether Democratic Gubernatorial candidate Ed Fitzgerald will have enough money to defeat Kasich in the race for governor.	3:00
3/2/14	Political strategists Terry Casey (Casey Communications) and Brian Rothenberg (ProgressOhio)	They talk about various issues, including whether or not the "state of the state" is good, on a new poll showing a tight race for governor, on how big a deal it is that the ODNR looked into working with oil drilling interests to "sell" the issue to Ohioans of drilling in state parks even though the ODNR is supposed to regulate that drilling, whether Ohio's voting laws are fair, on President Obama's 40% approval rating in Ohio, and whether Columbus can land a national political convention.	6:00
3/9/14	Columbus Dispatch Reporter Joe Vardon	He follows up on Governor Kasich's State of the State address. He says the Governor's positive take on job creation will meet with criticism, especially when the controversial JobsOhio is thrown into the mix. He also talks about the Statehouse debate going on over allowing more calamity days for schools and an anti-bullying bill making electronic harassment illegal .	11:00

3/16/14	Common Cause of Ohio Chair Sam Gresham	He talks about the need for civility in politics. Recently there were high-profile sparks during a committee hearing in Washington in which a lawmaker was not permitted to speak as the hearing was concluding. 3/23/14	State Representative Jay Hottinger	He talks about the Governor's tax proposals, saying Kasich is bold and unconventional and says the wide-ranging proposals give the legislature a lot to chew on without a lot of warning. He says he expects there to be some sort of agreement about an increase in the severance tax for oil and gas drillers in Ohio but it needs to be looked at closely to be sure it's done right. He says he's very concerned about increasing the Commercial Activities Tax, which affects all businesses.	6:00
3/23/14	Senate Minority Leader Joe Schiavoni	He discusses the Governor's tax proposals, saying changes proposed by the Governor are "a wash" overall but hurt lower income Ohioans. He also says without re-instating funding cuts to schools and communities any new proposals affecting them amount to unfunded mandates, creating more burdens. He also says he's never seen any examples of Ohio losing jobs because of its income tax rate, even though the Governor continues to talk about it being too high.	6:00

Information is being turned over to the county prosecutor.	7:00
2/9/14	10-TV Reporter Tanisha Mallett	She discusses the Columbus City Schools attendance scandal, saying teachers are not being implicated in the audit and she says the instructors are pleased with the auditor's report, which even praised teachers for their role in helping to unfurl the complicated issue.	3:00
2/9/14	Columbus Dispatch reporter Joe Vardon	He discusses various state issues, including extending calamity days. He says some Republicans have a problem with adding calamity days because teachers are being paid for those days and it is taxpayer money at stake. Vardon has been following Governor Kasich on the campaign trail in recent days and says he's been talking a lot about poverty and education and the need for faith-based organizations and businesses getting more involved in solving the two issues. And he talked about the sizable campaign fundraising difference to this point between money leader Kasich and challenger Ed Fitzgerald.	3:00

2/9/14	Emergency Room physician Dr. Howard Mell	He talks about prescription drug abuse, saying the problem is rampant. He says one reason is many years ago pain was undertreated and the federal government now considers the level of pain a patient experiences to be a "vital sign" and so more of a focus has been made on treating pain and dispensing medication. He says addiction is not predictable and the drugs can be obtained by non-patients in a variety of ways. He says corrupt doctors involved with pill mills have a big impact but are few in number—that most doctors and pharmacies are doing the right things.	20:00
3/16/14	Brigadier General John Harris, commander of the Ohio Army National Guard	He says for the first time since 9/11/01 all the Ohio units are home with only a few individuals deployed overseas. 3/30/14	Columbus attorney Maurice Thompson and Columbus Police Lieutenant Brent Mull	They discuss red light cameras, an issue that will soon be before the Ohio Supreme Court. Thompson says the cameras are a constitutional violation because they do not afford due process for those who are ticketed. Mull says cameras have made intersections in Columbus much safer, which he says is the reason they are there.	3:00

He also says he'd like to have the Columbus Crew play downtown but does not see that happening in the near future. Coleman also says if the slate were wiped clean for the major sports and cities had to be selected now that Columbus would be the only city in Ohio with all four major sports because it has clearly demonstrated it can support those efforts and is better positioned than Cleveland or Cincinnati to do it.	18:00
