8/14/16	Portage County Tea Party Executive Director and We The People Convention President Tom Zowastowski	He talked about why he thinks Donald Trump should be president, while admitting that Trump's comments frequently make him wince. He says Trump's stances on immigration and **trade** are best for the country. 9/4/16	State Representative Kristin Boggs, Franklin County Republican Party Central Committee Chairman Brad Sinnott, Franklin County Auditor Clarence Mingo, and Franklin University Public Administration Department Chair Alex Heckman	They discussed Ohio politics, including a poll of Ohioans that shows 24% say they would tell outsiders that life in Ohio is better than they think, while 40% say it's worse. They discussed another poll that says 19% of Ohioans surveyed say America is changing for the better while 62% say it's changing for the worse. Mingo says a presidential election brings out a lot of negativity, which he says the poll reflects.	19:00

She says prison departments should be doing more to prepare inmates for life on the outside, with **job training**, education and development of social skills. She says inmates who spend more time in prison are more likely to commit crimes when they are released, in part because of a lack of preparation for the outside world.	12:00
8/21/16	Buckeye Institute Policy Analyst Joe Nichols	He discussed Ohio's economy. He said Ohio's 4.8% unemployment rate is very good but notes that more Ohioans left the job force last month than in any month in 26 years. He suspects that people earlier this year who were out of work optimistically began looking for work and were unsuccessful and have again stopped looking. He also says Ohio is lagging many states in job growth, and says states that have right to work laws (allowing union members to opt out) seem to be faring better. He also says the fracking industry has been very good for Ohio's economy, especially in eastern and southeastern Ohio, but he says efforts by Governor Kasich to increase taxes on drillers would be counter-productive.	21:00

9/4/16	State Representative Kristin Boggs, Franklin County Republican Party Central Committee Chairman Brad Sinnott, Franklin County Auditor Clarence Mingo, and Franklin University Public Administration Department Chair Alex Heckman	They discussed Ohio politics, including a poll of Ohioans that shows 24% say they would tell outsiders that life in Ohio is better than they think, while 40% say it's worse. Mingo says a presidential election brings out a lot of negativity, which he says the poll reflects.	19:00
9/4/16	Policy Matters Ohio Founding Executive Director Amy Hanauer	She talked about her group's annual State of Working Ohio report. She says there are encouraging findings, including that wages and income are finally going up after years of being stagnant. 9/11/16	Ohio Republican Party Treasurer Tracy Winbush and former Franklin County democratic Party Chairman Greg Haas	They discussed various political issues, including Donald Trump's recent trip to Mexico and whether he is "acting presidential" and whether interacting with people without "handlers" being heavily involved is better or not. They also talked about the U.S. Senate race, in which Ohio Democratic challenger Ted Strickland has had ads pulled by a PAC supporting his campaign against Republican incumbent Rob Portman. They discussed whether criticism of Strickland's **handling of Ohio as Governor during the recession** in the late 200s was beneficial to Ohio or not.	18:00
9/18/16	Eric Trump, son of presidential candidate Donald Trump	He talked about his father's plan to "make America great again." He talked about jobs leaving the U.S., the reduction of manufacturing and the need to **keep jobs** here through improved trade agreements.	3:00

Cropper says Clinton puts an emphasis on the needs for early childhood education, universal pre-school for all 4-year olds, moving away from school vouchers, making higher education more affordable and increasing accountability standards for charter schools.
