Describe the educational and informational objective of the program and how it meets the definition of Core Programming.
City Guys: The educational objective of this program is to demonstrate how the knowledge of one or more characters in the story moves from one level to a more informed or higher level of knowledge by the end of each episode. This change in knowledge conveys an educational message to the audience which may fall into one or more categories - intellectual-cognitive and/or socio-emotional. The message will always be integral to the plot and present throughout the script. This objective is achieved in this series by exploring the pressures of living in a big city environment where situations are sometimes so difficult and challenging, kids have to learn sophisticated and responsible decision-making to be safe and stay focused. The series follows the encounters and problem-solving of two young men through an eventful school year at Manhattan High and shows teens how to work with their principal, family and friends to be successful.

Preemption Report

MEMORANDUM

7To: General Managers and Program Directors **cc:** Promotion Managers

From: Jenny Sanders

Date: January 6, 2003

Subject: 4th Quarter 2002: WB Television Network Children's Programming: Commercial Information

The WB Television Network Children's Programming

Attached is a list of 4th Quarter 2002 WB Children's Programming for your public files.

Statement

This statement is designed to furnish you with additional information concerning the commercial matter contained in the network's children's programs, and to enable you to more easily comply with the requirements of the Children's Television Act of 1990.

The following is a list of all WB Television Network programs which were produced and broadcast with the intention of primarily reaching an audience of children twelve years old and younger that were scheduled for broadcast during the fourth quarter of 2002. Please note that the one-time-only special holiday broadcast on Monday, December 23, 2002 of "Grandma Got Run Over by a Reindeer" is a program that was originally produced and broadcast with the intention of primarily reaching a general audience. However, because the program was scheduled and broadcast in the Kids' WB block of programming, it was formatted as a Childrens' program .

Each of these programs were formatted to allow for no more than 10.5 minutes of commercial time per hour on weekends and 12 minutes of commercial time per hour on weekdays. The actual number of network commercial minutes were included in the network traffic reports for the fourth quarter of 2002, which each affiliated station has received heretofore.
