KFBX-AM
Fairbanks, AK
Quarterly Issues/Programs List
3rd Quarter 2014

October 10, 2014

Issues

KFBX-AM provides its listeners with programming and public service announcements that address issues of concern to our local community. Among the issues determined to be of most concern to the community during the preceding calendar quarter were:

- **Child Welfare/Safety**: Marylee Bates, Fairbanks Youth Advocates, runs "The Door", a shelter for homeless youth. She talked about who they are and what they do, and the services they provide the homeless youth in Fairbanks.

- **Child Welfare/WIC Programs**: Jennifer Willeford, WIC & RCPC, spoke about services that the Resource Center for Parents & Children and Women, Infants, Children offer and talked about the benefits of breast feeding. She also promoted the event called "The Big Latch On."

- **Economic Development/Native Subsistence**: Debbie Miller talked about salmon in Alaska: how they're tracked, what's been learned about them, and how major a part they are of Alaskan life, as a food source, and historically.

- **Public Safety/Food Preparation**: Roxie Rogers Dinstel, Deputy Director of Cooperative Extension Service, talked about safe food storage (canning, etc.). Kyle Green, Deputy Fire Marshal for Fairbanks Fire Dept. talked about emergency preparation expo coming up.

- **Public Safety/Government Issues**: Amber Courtney, City of Fairbanks, and Mayor Luke Hopkins of the Fairbanks North Star Borough, talked about emergency preparedness and the Expo on Oct. 4 at the Carlson Center.

- **Public Service/Animal Shelter**: Ronnie Rosenberg, Animal Shelter Fund, discussed the fundraising part of the animal shelter and what it does for the Fairbanks community.

- **Recycling Program**: Rodney Gaskins, Executive Director, Fairbanks Rescue Mission, discussed the Rescue Mission's upcoming fundraiser, and he talked about the expansion of the recycling program.

- **Subsistence**: Roxie Dinstel, District Home Economist-UAF, Cooperative Extension Service, talked about picking and canning berries and fish, and preserving food for the winter.

Section I

Section II

SYNDICATED PROGRAMMING

ISSUE	PROGRAM/ TITLE	DESCRIPTION	DATE TIME	DURATION
Youth Sports/ Children's Health/ Family/ Travel/ Highway Safety/ Youth at Risk	Info Trak	Mark Hyman, Adjunct Instructor, Sports Management, explained why he is concerned about the advent of year 'round leagues, including the huge commitment of time and money, and the higher risk of injury. Suzanne Rowan Kelleher, family travel expert, outlined several policies that airlines have recently implemented that make travel significantly more expensive and inconvenient for families. Bob Ragazzo, Certified Defensive Driving Instructor, discussed several crucial safety tactics that drivers' education courses are not teaching students.	7/5/14	6:05-6:30am
Healthcare/ Education/ Children's Issues/ Crime/ Drug Abuse	Info Trak	Kate Tulenko, MD, MPH, physician & director of clinical services, said 25% of physicians in the US are foreign-trained and foreign-born. This has caused tens of thousands of high-paying local jobs in the healthcare sector to effectively vanish from the US citizens. Ulrich Boser, Senior Fellow at Center for American Progress said almost a third of eighth-grade students report reading less than 5 pages a day, either in school or for homework. Millions of students believe they are not being challenged enough in school. Uchendi Nwani, motivational speaker, former cocaine dealer & prison inmate, shared his inspirational story. He came from a middle-class family but ended up in prison after a conviction for cocaine trafficking. He talked about the importance of faith in his life & how he became a millionaire businessman after his release from prison.	7/12/14	6:05-6:30am
Allergies/ Personal Health / Volunteerism/ Community Involvement/ Crime/ Consumer Matters	Info Trak	Ruchi Gupta, M.D., M.P.H, Health Services Reseacher, lead author of a study that found that children in urban areas have much higher rates of food allergies than those in rural America. Tammi DeVille, author, said 44% of adults volunteer, and many others would consider it, if they thought they had the time and skills needed. Bruce Anderson, Cybercrime Expert, said free internet wi-fi access is everywhere these days—and so are computer hackers. He talked about the dangers of using public internet connections, and how average computer users can protect themselves.	7/19/14	6:05-6:30am
Education/ Women's Issues/ Health & Fitness/ Poverty/ Education/ Government Spending	Info Trak	Danica McKellar, actress & education advocate, majored in mathematics at UCLA, and now encourages middle-school girls to excel in math and how math skills can improve their overall self-confidence. Charles Duhigg, investigate reporter for the New York Times, discussed how habits shape every aspect of our lives. He summarized the results of recent scientific research that explains why habits exist and how they can be changed. Jonathon Kozol, writer, educator & public education activist, has been working with low-income children in inner-city schools for nearly fifty years. He believes that because of vast differences in funding from one area to another, the nation's schools remain unequal and deeply segregated.	7/26/14	6:05-6:30am
Workplace Matters/	Info Trak	Timothy J. Mohin, environmental advocate & author, said that American corporations are gradually becoming more socially	8/2/14	6:05-6:30am

Parenting/ Education/ Personal Health /Environment		responsible. He said young professionals now view "having an impact" as a much more important career goal than many other more traditional priorities. Madeline Levine, PhD, psychologist, said while parents, educators, and the media express concern about the soaring rates of emotional problems, and poor learning skills in America's children, there are ways to reverse these trends. Miriam Rafailovich, PhD, materials engineering researcher, led a study that found that many compact fluorescent light (CFL) bulbs emit high levels of ultraviolet rays.		
War on Drugs/ Legal Issues/ Consumer Matters/ Employment/ Workplace Matters	Info Trak	Jonah Engle, freelance journalist, discussed civil asset forfeiture, a part of the War on Drugs which allow the government to seize property – event if it doesn't have enough evidence to convict or even charge someone with a drug offense. Alexandre Montagu, attorney, expert in intellectual property law, talked about intellectual property law, how it has changed with new technology. Jennifer Grasz, Vice President at CareerBuilder.com, outlined the results of a recent survey conducted by her organization that found that 69% of full-time workers regularly search for new job opportunities.	8/9/14	6:05-6:30 am
Drinking & Driving/Public Health/ Women's Issues/ Homelessness/ Poverty	Info Trak	Pamela Hyde, Administrator of Substance Abuse & Mental Health Services Administration, talked about new data that says there has been a 54% drop in drinking & driving among high school teens. Janet Tomiyama, PhD, Asst. Professor in Psychology, conducted a study that examined the roles that stress and race play in the epidemic of obesity among teenage girls. Brian Fikkert, PhD, Assoc. Professor of Economics, talked about the challenges faced by faith-based organizations & other groups when seeking to help poor or homeless Americans.	8/16/14	6:05-6:30 am
Personal Health /Emergency Medicine/ Retirement Planning/ Employment	Info Trak	David Casarett, MD, MA, Assoc. Professor of Medicine, said most people don't survive cardiac arrest or significant trauma. He talked about the impressive survival rate of those who receive CPR treatment. Greg McBride, Chief Financial Analyst, said that a third of all Americans have nothing saved for retirement. He explained why this issue should be such a serious concern. Rick Maurer, author, said that 70% of all major changes in organizations fail – and that number hasn't changed since researchers started examining success and failure rates some 15 years ago.	8/23/14	6:05-6:30 am
Parenting Concerns/ Minority Concerns/ Workplace Matters/ Youth Issues	Info Trak	Lee Crockett, Managing Partner of 21st Century Fluency Project, said that today's digital technology is dramatically changing how children learn and the public school systems must adapt. Randall Pinkett, first African-American winner of "The Apprentice," he also became the only contestant who was asked to share his victory with a white woman. Peter Polos, MD, PhD, specialist in sleep medicine. He was the lead researcher in a study that examined how electronic media affects the sleep of teenagers.	8/30/14	6:05-6:30 am
Personal Health / Youth Sports/ Hunger/ Food Safety/ Teen Issues/ Youth at Risk	Info Trak	Robert Cantu, MD, Chief of Neurosurgery, discussed how concussions are a not-so-silent epidemic among school-age athletes and the most common causes of concussions and explained which sports are the most dangerous. Dana Gunders, Project Scientist, was the lead author of a report that found that 40% of the nation's food supply—valued at $165 billion—goes uneaten each year. She outlined the economic &	9/6/14	6:05-6:30 am

		environmental impacts of food waste, and what can be done to fight this growing problem. Roger Leslie, award-winning teacher, believes that teens need to set goals in order to succeed in later life. He offered suggestions of how teens can determine their personal strengths & take smart risks.		
Personal Health /Drug Abuse/ Employment/ Education	Info Trak	Lisa Gill, Prescription Drugs Editor. Prescriptions for opioids have climbed 300% in the past decade and more than 46 Americans die each day from legal pain pills and she discussed the reasons behind this trend. She offered advice to patients who are dealing with pain. Tony Lee, Publisher of CareerCast.com, outlined his organization's list of the most overrated and underrated jobs, based on factors such as pay, hiring outlook, work environment, stress and physical demands. He also offered advice for those who are seeking to change careers or move up the ladder in their present industry.	9/13/14	6:05-6:30 am
Volunteering/ ADHD/ Education/ Personal Health /Environment	Info Trak	Jennifer Aaker, PhD, social psychologist, outlined ways to use the power and popularity of social media to do good in the world. She believes that the use of social media can turn small actions into much larger results for non-profit organizations. Jodi Sleeper-Triplett, MCC, SCAC, founder of the movement for ADHD coaching for youth. She talked about the increasing cases of attention-deficit/hyperactivity disorder among American's youth and adults. She said medication and therapy often are not enough. Erick Schreder, Staff Scientist at Washington Toxics Coalition, was the lead scientist of a report that found that half of thermal paper receipts and 95% of dollar bills in circulation contain the hormone-disrupting chemical BPA and now present in 93% of all Americans. She explained the negative health consequences of BPA and what consumers can do to avoid it.	9/20/14	6:05-6:30 am
Poverty/Youth at Risk/ Adoption/ Parenting/ Personal Health	Info Trak	Randy Albelda, PhD, Professor of Economics & Senior Research Fellow, recently co-authored a report called "How You Are Put at Risk by Parents' Low-Wage Jobs." She explained the special challenged faced by low-income parents who are in jobs that lack flexible hours & benefits like health insurance, paid sick days and vacation days. She said these factors impact a child's education, health & future prospects. Adam Pertman, Executive Director of non-profit Donaldson Adoption Institute, discussed the rapidly changing process of adoption, largely driven by the Internet. He said social networking and other online tools have radically changed both the process of adoption & the expectation of privacy. Rodlescia Sneed, Graduate Student in the Psychology Dept., was the co-author of a study that found that parents are 52% less likely to develop a cold than non-parents.	9/27/14	6:05-6:30am
