Re: WLWT
0000050307
Cincinnati, OH
Fac. ID: 46979

Dear Licensee:

This refers to you request dated April 5 2018, requesting special temporary authority (STA) for WLWT to operate periodically on its pre-transition channel 35 from the station's interim antenna during certain construction phases of WLWT's repack project to transition from its existing channel 35 to its post-transition channel 20. You point out that some of WLWT's transition-related construction activities including but not limited to tower work, removal of the station's former analog antenna, and installation of WLWT's post-transition primary antenna have been scheduled to commence during the summer of 2018 time frame. Thus, as some of these activities are set in motion and WLWT's post-transition construction unfolds, WLWT will periodically shut down its current primary antenna and move its operation over to its side-mount interim antenna.

In light of the above, special temporary authority is GRANTED pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules. This authorization expires on October 13, 2018.

We wish to point out that an extension of this request must include detailed reasons and a description of efforts being taken to return the station to full power operation.

Sincerely,

Kevin R. Harding
