

Local Public Service Programming-Quarter 3, 2016

Public Affairs Host: Nia Bender

The following is a summary of Entercom Denver Radio's local community affairs programming for July, August and September 2016.

"Colorado Today" encompasses the approximately one-hour of local public service programming required under Entercom Denver's license agreement with the Federal Communications Commission.

"Colorado Today" features 2-half hour segments, all of which focus on issues that directly impact the Denver-Metro areas and Colorado as a whole. The topics chosen are partially derived from quarterly ascertainment meeting coordinated by the Colorado Broadcasters Association. Other topics are brought to our attention from local non-profit groups through our on-air marketing campaigns.

"Colorado Today" is locally-produced and hosted by Nia Bender.
