WB Educational Programming

Attached is a list of 3rd Quarter 2001 WB Children's Programming for your public files.

Statement

This statement is designed to furnish you with additional information concerning the commercial matter contained in the network's children's programs, and to enable you to more easily comply with the requirements of the Children's Television Act of 1990.

The following is a list of all WB Television Network programs which were produced and broadcast with the intention of primarily reaching an audience of children twelve years old and younger that were scheduled for broadcast during the third quarter of 2001. Each of these programs were formatted to allow for no more than 10.5 minutes of commercial time per hour on weekends and 12 minutes of commercial time per hour on weekdays. The actual number of network commercial minutes were included in the network traffic reports for the third quarter of 2001, which each affiliated station has received heretofore.

The "E/I" notation represents "core" educational programming on The WB that The WB believes meets the FCC educational programming three (3) hour processing guideline.
